

Model *εSENSE*[™]

Carbon dioxide transmitter

PRODUCT DESCRIPTION

εSENSE[™] is a new simple, low cost, state-of-the-art, infrared and maintenance-free carbon dioxide transmitter for installation in the climate zone or in the ventilation duct.

εSENSE[™] measures the carbon dioxide concentration in the ambient air up to 2000 ppm and transforms the data into an analogue output.

εSENSE[™] helps you save money by decreasing your energy consumption while creating a healthier indoor climate!

FEATURES

SenseAir's patented state-of-the-art gold-plated infrared (NDIR) waveguide technology offers reliable measurements

- Measurement range: 0 - 2 000 ppm CO₂
- Two analogue outputs (not model -I):
- Internal automatic self-diagnostics.
- Maintenance-free in normal applications
- Cost-optimized for connection to DDC:s
- Prepared for complementary passive temperature element (model -Tr).
- Different housing options

APPLICATIONS

εSENSE[™] is an extremely cost-optimized sensor solution for climate control of buildings and other processes.

By controlling the ventilation based on actual demand, it helps you decrease your energy consumption and yet have a healthy indoor climate!

The different housing options makes the *εSENSE*[™] available to almost any application or environment for example in greenhouses, residential and commercial buildings.

εSENSE[™] -Tr is also prepared for quick mounting of a complementary passive temperature element, which can easily be done by the customer.

εSENSE[™] II fits directly on top of American standard electrical wall conduits

Note 1: The SO₂ enriched environments are excluded.

Note 2: In normal IAQ applications (@ NTP). Accuracy is defined after minimum 3 weeks of continuous operation. The tolerance of the span calibration gas (2 % unless otherwise requested) and test gas adds to the total uncertainty.

Note 3: The specifications are valid for the output load connected to ground G0. Other outputs and measurement ranges are available per request.

Note 4: Resistive probe is to be mounted by the user. Can be factory pre-mounted upon request.
